### SECTION 2 – HAZARDS IDENTIFICATION

**Classification of the substance or mixture**

<table>
<thead>
<tr>
<th>SUSMP Poisons Schedule</th>
<th>Dangerous Goods</th>
</tr>
</thead>
<tbody>
<tr>
<td>Not classified as a Scheduled Poison according to the SUSMP</td>
<td>Not classified as Dangerous Goods according to the Australian Dangerous Goods Code</td>
</tr>
</tbody>
</table>

**GHS Classification**

- Skin Irritation – Category 2
- Eye Irritation – Category 2A
- Specific Target Organ Toxicity - Category 3

**Label elements**

- GHS label pictograms: Exclamation Mark
- Signal word: WARNING

**Hazard statement(s)**

- Causes skin irritation.
- Causes serious eye irritation.
- May cause respiratory irritation

**Precautionary statement(s): General**

- Keep out of reach of children. In emergencies call 000

**Precautionary statement(s): Prevention**

- Wash hands thoroughly after handling.
- Wear protective gloves and eye / face protection.
- Do not breathe mist.
- Use only in a well-ventilated area

**Precautionary statement(s): Response**

- IF ON SKIN: Wash with plenty of soap and water. Specific treatment (see section 4 of this SDS). If skin irritation occurs: Get medical advice. Take off contaminated clothing and wash before reuse.
- IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical advice.
- IF INHALED: Remove victim to fresh air and keep at rest in a position comfortable for breathing. Call a POISON CENTER or doctor if you feel unwell

**Precautionary statement(s): Storage**

- Store locked up, in a well ventilated place, in accordance with local regulatory requirements. Keep container tightly closed

**Precautionary statement(s): Disposal**

- Dispose of contents/container in accordance with local regulations

**Note**

- IMPORTANT: This SDS and the Hazard Classifications contained therein, only apply to the product in its concentrated form, as supplied. Good hygiene practices should be adhered to.
Ingredients: |
<table>
<thead>
<tr>

</tr>
<tr>
<td>Diethylene glycol monobutyl ether</td>
<td>112-34-5</td>
<td>&lt;10% w/w</td>
</tr>
<tr>
<td>Ingredients determined to be non-hazardous at the concentrations used</td>
<td>Various</td>
<td>To 100%</td>
</tr>
</tbody>
</table>

NOTE: Ingredients determined not to be hazardous are present in concentrations that do not exceed the relevant cut-off concentrations as found from NOHSC publication “List of Designated Hazardous Substances” or have been found NOT to meet the criteria of a hazardous substance as defined in the GLOBALLY HARMONIZED SYSTEM OF CLASSIFICATION AND LABELLING OF CHEMICALS (GHS), 4th edition United Nations 2011. Listed ingredients may be below the cut-off concentrations for classification as hazardous, but are listed for information purposes and for additive effects.

SECTION 4 - EMERGENCY AND FIRST AID PROCEDURES

**Scheduled Poisons**
Poisons Information Centre in each Australian State capital city or in Christchurch, New Zealand can provide additional assistance for scheduled poisons. (Phone Australia 131126 or New Zealand 0800 764 766).

**First Aid Facilities**
Normal washroom facilities.

**Skin contact**
Wash skin with plenty of water. Remove contaminated clothing and wash before re-use. Seek medical advice (e.g. doctor) if irritation, burning or redness develops.

**Eye contact**
Immediately irrigate with water for at least 20 minutes. Eyelids to be held open. Seek medical advice (e.g. ophthalmologist) if any irritation persists.

**Ingestion**
Do NOT induce vomiting. Rinse mouth thoroughly with water immediately. Give water to drink. If vomiting occurs, give further water to achieve effective dilution. Seek medical advice (e.g. doctor).

**Inhalation**
Remove victim to fresh air away from exposure - avoid becoming a casualty. Seek medical advice (e.g. doctor) if symptoms persist.

**Advice to Doctor**
Treat symptomatically. All treatments should be based on observed signs and symptoms of distress of the patient.

**Aggravated Medical Conditions**
None known.

SECTION 5 – FIRE FIGHTING MEASURES

**Fire and Explosion Hazards**
Water based. Not combustible. However, if involved in a fire will emit toxic fumes.

**Extinguishing Media**
Use an extinguishing media suitable for surrounding fires.

**Fire Fighting**
Keep containers exposed to extreme heat cool with water spray. Fire fighters to wear self-contained breathing apparatus if risk of exposure to products of combustion or decomposition. Evacuate area - move upwind of fire.

**Flash Point**
> 61 °C, Not combustible.

SECTION 6 – ACCIDENTAL RELEASE MEASURES

**Emergency Procedures**
No HAZCHEM code.

**Occupational Release**
Minor spills do not normally need any special clean-up measures. In the event of a major spill, prevent spillage from entering drains or water courses. For large spills, or tank rupture, consider initial evacuation distance of 200 metres in all directions. Stop leak if safe to do so. If available, use water spray to disperse vapour. Wear appropriate protective equipment as in section 8 below to prevent skin and eye contamination. Spilt material may result in a slip hazard and should be absorbed into dry, inert material (e.g. sand, earth or vermiculite), which then can be put into appropriately labelled drums for disposal by an approved agent according to local conditions. Residual deposits will remain slippery. Wash area down with excess water. If contamination of sewers or waterways has occurred advise the local emergency services. In the event of a large spillage notify the local environment protection authority or emergency services.
SECTION 7 – HANDLING AND STORAGE

Handling
Avoid contact with incompatible materials. When handling, DO NOT eat, drink or smoke. Keep containers closed at all times. Avoid physical damage to containers. Always wash hands with water after handling.

Storage
Store in a cool, dry, place with good ventilation. Avoid storing in aluminium and light alloy containers. Store away from incompatible materials (Section 10). Keep containers closed at all times – check regularly for leaks.

SECTION 8 – EXPOSURE CONTROLS AND PERSONAL PROTECTION

Exposure Limits
National Occupational Exposure Limits, as published by Safe Work Australia:
- Time-weighted Average (TWA): None established for specific product.
- Short Term Exposure Limit (STEL): None established for specific product.
- Exposure Limits of individual ingredients: None allocated.

Engineering Controls
No special requirements.

Personal Protective Equipment
Use good occupational work practice. The use of protective clothing and equipment depends upon the degree and nature of exposure. Final choice of appropriate protection will vary according to individual circumstances i.e. methods of handling or engineering controls and according to risk assessments undertaken. The following protective equipment should be available;

- Eye Protection: The use of safety glasses with side shield protection, goggles or face shield is recommended to handle in quantity, cleaning up spills, decanting, etc. Contact lenses pose a special hazard; soft lenses may absorb irritants and all lenses concentrate them.

- Skin Protection: Wear gloves. Overalls, work boots and elbow length gloves are recommended for handling the concentrated product (as per AS/NZS 2161, or as recommended by supplier) to handle in quantity, cleaning up spills, decanting, etc.

Protective Material Types
Material suitable for detergent contact – Butyl rubber, Natural Latex, Neoprene, PVC, and Nitrile.

Respirator
Generally not required to handle as per label directions.

SECTION 9 – PHYSICAL AND CHEMICAL PROPERTIES

Physical State
Liquid

Colour
Green

Odour
Eucalyptus

Specific Gravity
1.00 – 1.02 @ 25 °C

Boiling Point
Approximately 100 °C

Freezing Point
Approximately 0 °C

Vapour Pressure
Not available

Vapour Density
Not available

Flash Point
Not flammable

Flammable Limits
None

Water Solubility
Miscible in all proportions

pH
11.0 – 12.0 neat

Coefficient of Water/Oil Distribution
Not available

Volatile Organic Compounds (VOC)
Not available

Odour Threshold
Not available

Viscosity
Not available

Per Cent Volatile
Ca 80 % v/v

SECTION 10 – STABILITY AND REACTIVITY

Chemical Stability
Stable at normal temperatures and pressure.

Conditions to Avoid
Oxidising agents, extremes in temperature.

Incompatible Materials
Oxidising agents.

Hazardous Decomposition
Product can decompose on combustion (burning) to form Carbon Monoxide, Carbon Dioxide, and other possibly toxic gases and vapours

Hazardous Reactions
None known.
SAFETY DATA SHEET
“BBQ MAGIC”

SECTION 11 – TOXICOLOGICAL INFORMATION

POTENTIAL HEALTH EFFECTS
No adverse health effects expected if the product is handled in accordance with this Safety Data Sheet and the product label. Symptoms or effects that may arise if the product is mishandled and overexposure occurs are:

Ingestion
- **short term exposure**
  Ingestion of this product may cause nausea, vomiting, abdominal pain and irritation to the mouth, throat and stomach.

- **long term exposure**
  No information available.

Skin contact
- **short term exposure**
  May cause skin irritation (alkaline pH). May cause skin sensitisation (orange oil). Prolonged contact with concentrated solutions may be irritating.

- **long term exposure**
  This product, as supplied is not a sensitizer. Improper storage and handling can lead to oxidation. The oxidized forms of orange oil have shown potential to be skin sensitizers.

Eye contact
- **short term exposure**
  Eye contact may cause stinging, blurring, tearing, pain.

- **long term exposure**
  No information available.

Inhalation
- **short term exposure**
  Inhalation of mists or aerosols may produce mucous membrane and respiratory irritation.

- **long term exposure**
  No information available.

Carcinogen Status
- **SWA**
  No significant ingredient is classified as carcinogenic by SWA.

- **NTP**
  No significant ingredient is classified as carcinogenic by NTP.

- **IARC**
  No significant ingredient is classified as carcinogenic by IARC.

- **Respiratory sensitisation**
  Not expected to be a respiratory sensitizer.

- **Skin Sensitisation**
  Not expected to be a skin sensitizer as supplied.

- **Germ cell mutagenicity**
  Not considered to be a mutagenic hazard.

- **Reproductive Toxicity**
  Not considered to be toxic to reproduction.

- **STOT-single exposure**
  Inhalation of mists or aerosols may produce mucous membrane and respiratory irritation.

- **STOT-repeated exposure**
  Not expected to cause toxicity to a specific target organ.

- **Aspiration Hazard**
  Not expected to be an aspiration hazard.

SECTION 12 – ECOLOGICAL INFORMATION

Eco-toxicity
- **Product (as sold)**
  None available for specific product.

Persistency and degradability
- Individual components have been specifically included in this product because they are known to be readily biodegradable and of low toxicity to fish and other aquatic organisms.

Bio accumulative potential
- None available for specific product.

Mobility in soil
- None available for specific product.

Environmental Protection
- Expected to be harmful to aquatic species. Product miscible in all proportions with water. As with any chemical product, do not discharge BULK quantities into drains, waterways, sewer or environment. Inform local authorities if this occurs.

SECTION 13 – DISPOSAL CONSIDERATIONS

Disposal
- The small quantities contained in wash solutions (when used as directed) can generally be handled by conventional sewage systems, septic tanks, and grey water systems.

  To dispose of quantities of undiluted product, refer to State Land Waste Management Authority. Transfer product residues to a labelled, sealed container for disposal or recovery. Waste disposal must be by an accredited contractor. As with any chemical, do not put down the drain in quantity. For larger scale use, eg. Commercial laundry operations, a recycled water system is often recommended, or Trade Waste License obtained for disposal to sewer.

This SDS summarizes at the date of issue our best knowledge of the health and safety hazard information of this product, and in particular how to safely handle and use this product in the workplace. Since the supplier cannot anticipate or control the conditions under which the product may be used, each user must, prior to usage, review this SDS in the context of how the user intends to handle and use the product in the workplace. If clarification or further information is needed to ensure that an appropriate assessment can be made, the user should contact this supplier.

The SDS is valid for five years from date of issue but may be withdrawn and revised at any time prior to that date. All information contained in the Data Sheet is as accurate as possible at the time of issue. It is meant to describe the safety requirements of our products and should not be construed as guaranteeing specific properties. No expressed or implied warranties nor any responsibility for damages resulting from use of the information are given other than those implied mandatory by Commonwealth, State or Territory Legislation. If this product is to be re-packaged by others, it will be necessary for a new SDS to be generated by the re-packer.

End of SDS
